- Communication

Profile Summary

I am a dedicated fourth-year Digital Arts student at PHINMA Cagayan de Oro College with a strong foundation in digital illustration, graphic design, and basic animation. I am passionate about creating visually compelling designs and I am committed to continuously enhancing my creative and technical expertise. I aspire to pursue a career as a Digital Artist or Graphic Designer, where I can contribute innovative ideas while growing professionally in the creative industry.

Education

Bachelor of Science in Information Technology

PHINMA Cagayan de Oro College

2023-2026

RELEVANT EXPERIENCE

- UI/UX Designer & Script Writing, Storyboards
- Project Experience
- Academic Project

PROJECT

ORDERING SYSTEM OF OVRGRWTH

Academic Project October 2024

HTML| PHP|MySQL

- Designed and developed a web-hased thrift store management system that streamlines product browsing, order processing management for small businesses.
- Developed a user-friendly interface for browsing and purchasing thrift items.
- Implemented order management features.

MEDICAL RECORD SYTEM

Academic Project November 2025

HTML| PHP|MySQL|Figma

- The Medical Record System is designed to manage both online and walk-in patient appointments. It allows patients to schedule consultations with doctors, track diagnoses, request laboratory tests, and view reports about their health status.
- Contributed to analytics dashboards fior monitoring patient records.

The Medical Record System is designed to manage both online and walk-in patient appointments. It allows patients to schedule consultations with doctors, track diagnoses, request laboratory tests, and view reports about their health status.

Capstone Project July -October 2026

HTML| Java Script|MySQL|Figma|CSS

- A digital platform integrated with Artificial Intelligence designed to automate instructional workflows, such as assessment generation and remedial feedback, to support student success.
- Designed the system's UI/UX, wireframes, and interface prototypes.
